CAPABILITY STATEMENT

Core Competencies

Shape Energy is an agile infrastructure technology company that specialise in emergency and off-grid power solutions. We provide full design-install-maintain services across a range of equipment, from generators, to compressed air systems, to uninterruptible power supplies. We ensure consistency in your organisation's power supply.

As a part of Shape Group, we can harness the resources to meet the needs of your projects. We deliver clean, connected, resilient technology to our clients. The hardware and maintenance services that we provide will bolster your business for years to come.

 Air Compressors	 Battery Energy Storage Systems
 Air Distribution Systems	 Nitrogen Generation
 Off-Grid Power	 Renewable Energy Installation
 Diesel Generators	 Micro Grid Solutions
 Uninterruptible Power Supplies	 Equipment Monitoring and Maintenance

Differentiators

-  24/7 maintenance service for your energy assets
-  A team of experts across the fields of power generation, air compression, and UPS/ battery storage, able to provide design and consultancy services to meet your needs.
-  Turnkey solutions for a range of industrial and commercial setting providing quick turnaround no matter your needs
-  A range of models for assets provision to meet your needs, whether via purchase or through leasing, along with a range of options for how to manage, monitor, and service your equipment
-  Full spare parts inventory, stocked to make the turn-around of repairs on your equipment as quick as possible
-  A design team ready to provide systems customised to your operational environment

Past Performance

We have many completed and ongoing projects with a number of governmental and blue-chip clients. Here are some of those clients that we are proud to work alongside:
